Shoot Rules and Regulations

This shoot is registered with the Amateur Trapshooting Association (ATA) and Atlantic Provinces Trapshooting Association (APTA). Official ATA rules will govern shooting in all events and all shooters must be members of the ATA and APTA (AP residents only). Memberships may be purchased at the registration desk.

The Shoot Committee reserves the right to reject any entry and make changes to the program if conditions warrant.

Errors in scores must be corrected on the score sheets before leaving the shooting post. Each shooter is responsible for checking their score on the bulletin board. No score will be changed once the awards and purses have been figured.

All ties for titles and championships will be shot off in 25 target events for singles and handicap and 10 pairs for doubles. All shoot-offs will be scheduled at the discretion of the Shoot Committee. If involved in a tie, shooters must be on the grounds when their shoot-off is called or else forfeit all rights. All shooters are responsible for providing their own ammo for spares and shoot-offs.

Due to the number of shooters expected, shooters are requested to be at the shooting line and prepared to move to the Trap immediately after the previous squad finishes shooting. Any shooter missing their squad will be re-squadded at the end of the event.

Etiquette

Please show courtesy to other shooters by refraining from loud or boisterous conduct while behind shooters still competing on the firing line, especially during the handicap events. Your cooperation is appreciated. Shoot management also reserves the right to disqualify, or refuse

entry to any person(s) or shooter(s) who interfere with or disturb the harmony of the shoot in any manner. Shoot management also reserves the right to modify/cancel/revise any aspect of the event if necessary.

Target Setting

The Target Setting Committee will set targets each morning or upon event changes. Targets will be set in accordance with ATA rules. Targets shall be reset only if they become illegal or appreciably vary from legal targets. The final decision as to whether or not a trap is to be reset shall be made only by a member of the Target Setting Committee.
